## PROJECTS

- **Recroot AI - AI Job Description Assistant** [Next.js, Node.js, TypeScript, Express.js, MongoDB, Gemini API]:
  - [GitHub Repository](#) | [Recroot AI Website](#)
  - Developed a AI-powered web application for generating and optimizing job descriptions using Gemini AI technology.
  - Implemented a full-stack solution with **JWT authentication**, **user management**, and **draft saving** capabilities.
  - Built a modern, responsive interface using **Next.js 15**, **TypeScript**, and **ShadCN UI** components with dark mode support and mobile-first design.
  - Integrated **MongoDB** with **Mongoose ODM** for data persistence and **Google Gemini API** for intelligent job description generation with customizable parameters.
- **SGVU Tech Fest Website** [React, Tailwind CSS, GSAP, ShadCN UI, Vercel, React Router]:
  - [GitHub Repository](#) | [SGVU Tech Fest Website](#)
  - Designed and developed a dynamic website for my university (SGVU) tech fest, enabling event registrations and updates.
  - The website has garnered over **90,000+** users, showcasing its popularity and overall engagement among the students.
  - Built a modern and responsive interface using **React Router** and **ShadCN UI** components to enhance user experience.
  - Integrated **GSAP** to enable smooth animations and transitions, enhancing the interactivity and performance of website.
- **Hiring Hub** [React, Tailwind CSS, Supabase, Clerk, ShadCN UI]:
  - [GitHub Repository](#) | [HiringHub Website](#)
  - Designed a **job portal** to streamline **job searching**, **resume submissions**, and enhance **hiring processes**.
  - Built an intuitive **user interface** that facilitates seamless **job posting**, **searching**, and **application management**.

## EXPERIENCE

- **Unified Mentor (May 2024 - June 2024):**
  - Developed frontend functionalities using **HTML**, **CSS**, and modern **JavaScript (ES6)** to enhance user experience.
  - Built dynamic and reusable UI components with **React.js**, to ensuring efficient and maintainable code structure.
  - Successfully implemented backend services using **Node.js** and integrated **MongoDB** for scalable data management.
  - Seamlessly integrated the **Firebase** for features such as user **authentication** and real-time database interactions.
- **PHN Technology (April 2023 - June 2023):**
  - Engineered modern, component-based UIs with **React.js**, leveraging **Tailwind CSS** for consistent, utility-first styling.
  - Integrated **Supabase** to efficiently handle authentication, database, and **API** functionalities in a scalable manner.
  - Designed and optimized relational data structures using **MySQL**, ensuring efficient data retrieval and data integrity.
  - Collaborated in agile development cycles, emphasizing clean architecture, code reusability, and performance optimization.
